- This project is done together by Metin Dumandağ (2015400048) and Fatih İver(2016400264)

- The following code is in the gms file to reduce the size of the lst file when uploading to moodle. You may want to remove them to see the full version of the lst file.

```
$inlinecom /* */

/* Turn off the listing of the input file */
$offlisting

/* Turn off the listing and cross-reference of the symbols used */
$offsymxref offsymlist

option
    limrow = 0,     /* equations listed per block */
    limcol = 0,     /* variables listed per block */
    solprint = off,     /* solver's solution output printed */
    sysout = off;
```
